

Community Media Archive Status Report

John Hauser, Access Humboldt

May 31, 2013

“Leave It to the Experts” Session Slides

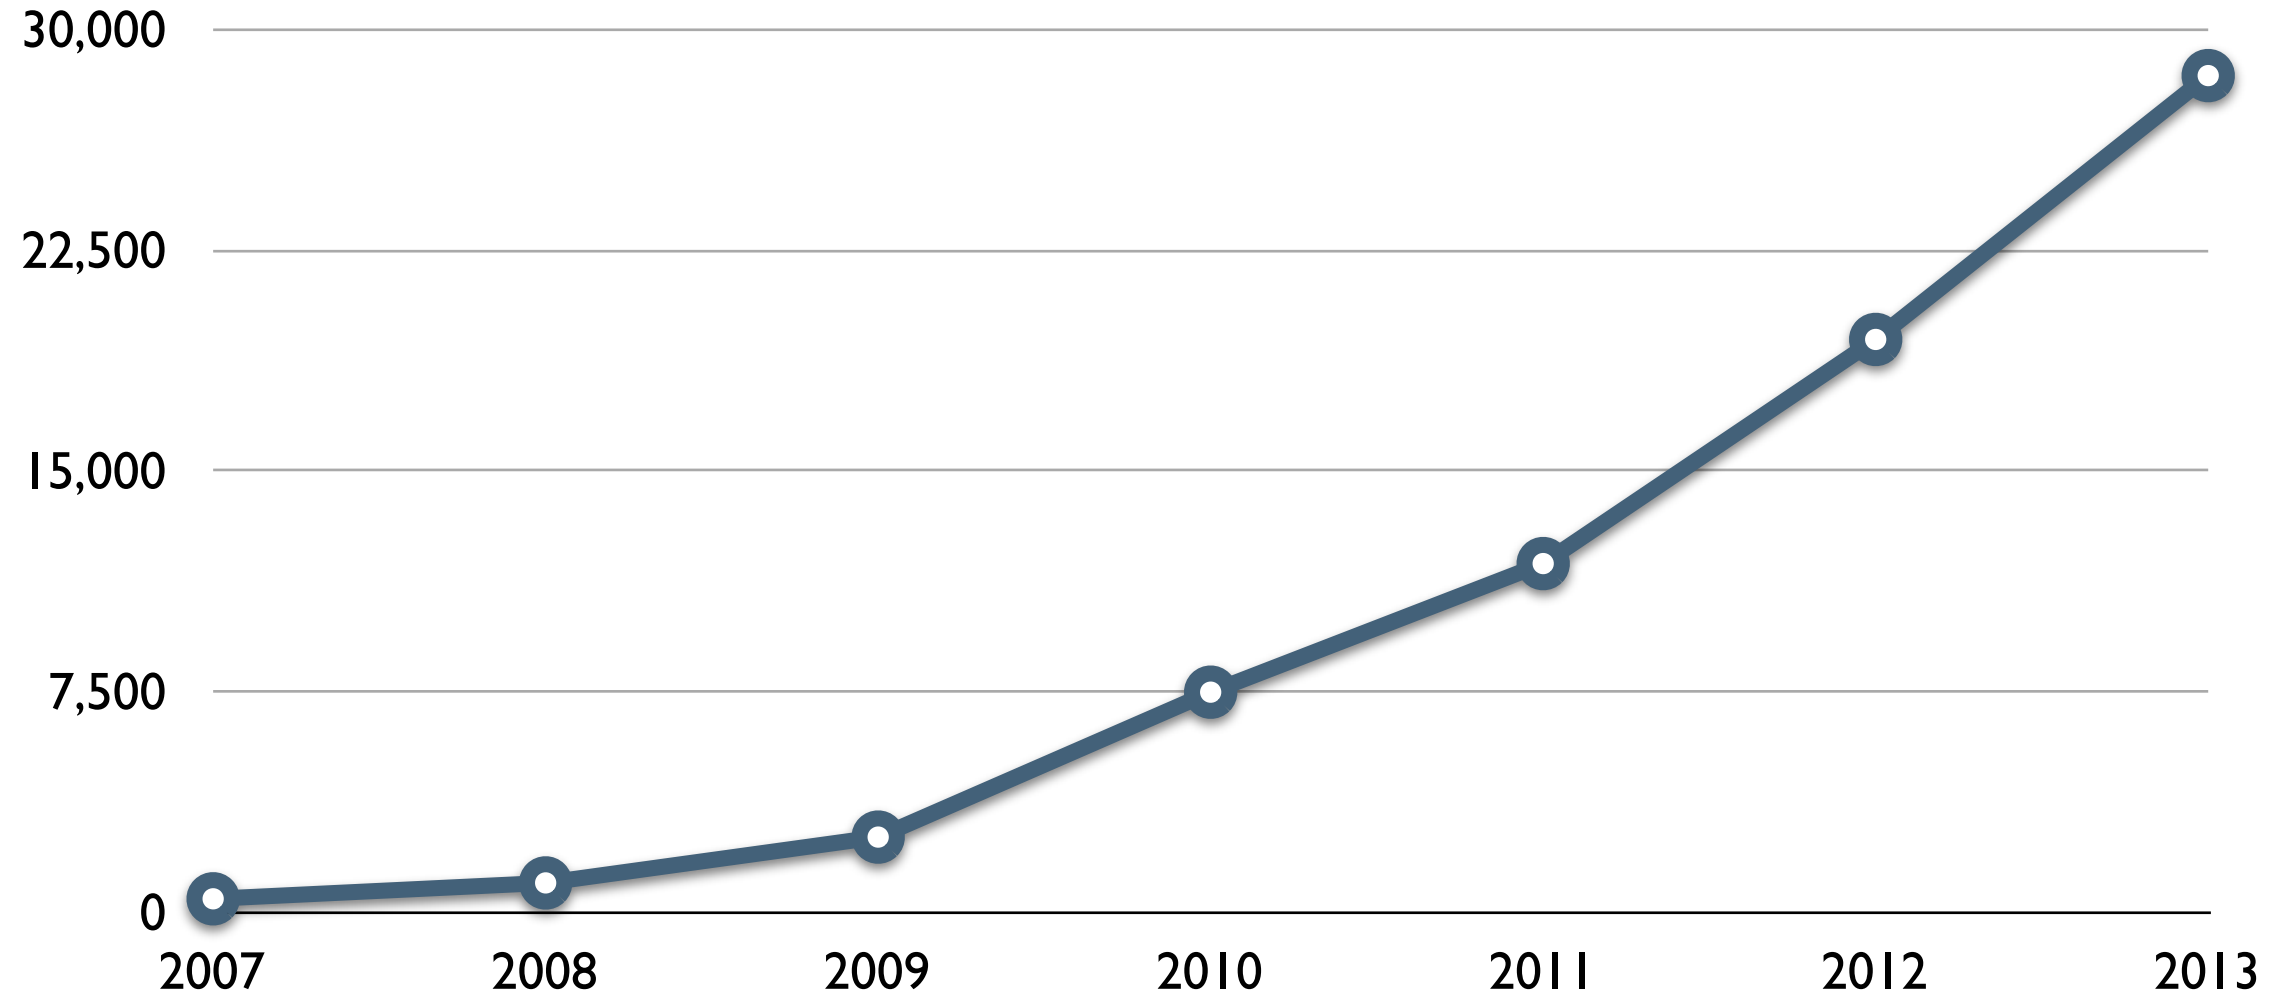

Community Media Archive Scope

- About 5 years old
- 24,000+ videos, 21,000+ hours
- 31 Access Centers have contributed
- 1.3 million downloads
- 35TB of “original” video files (not “derivative” formats)

Community Media Archive Vision

- A collection of broadcast quality, locally produced shows with sufficient descriptive information that are freely shareable
- Archive as the hub of a sharing/distribution system for broadcast quality video between access centers

○ Total Community Media Archive Items

Enhanced Metadata Project

- Elements present but not searchable in IA interfaces
 - A/V parameters, filename, file source, runtime/duration
- Add elements not present, but needed
 - “Series”, “Episode” or “Sequence” keywords
- Analysis of 4 largest sub-collections; DOM, AH, WCCA, SCM
 - 75%-85% of videos belong to “Series”

Archive.torrent file

Bittorrent Client

Frictionless Downloads

- RSS Feeds of Advanced Search results
- RSS Feeds of Archive Torrents
- Zyxel NAS Units Broadcatching App
- uTorrent S/W supports RSS feed of torrents
- Still need a good way of selecting items for download
 - runtime, A/V params, filename, series

How can I help?

- Improve the metadata of your items
- Push all of your metadata to archive (they accept anything!)
- Take the time to learn Internet Archive's interfaces
 - “Advanced Search”, “Edit Item”, “Item History”
 - “Item Manager”, [ias3upload.pl](#) (bulk uploader)
- Help underwrite work on the distribution aspect of the CMA
